## Christian Forest Card Insert

The Canadian Christian Forest is located on the eastern slopes of the Nazareth Hills – an area rich in forests, natural woodlands and scenic viewpoints affording splendid panoramas over the Yisrael Valley to Lower Galilee.

KKL-JNF has built picnic sites, carved out hiking and cycling trails, and installed scenic lookouts. The forest extends over 25,000 dunams (6,250 acres or 250 ha) of natural Tabor oak land which, in the past, covered large areas of northern Israel.

Located in the central Galilee region, between Nazareth and Mount Tabor, this picturesque forest has been designated as the Canadian Christian Forest in tribute to our Canadian Christian friends who share a love for the Land of Israel.
